9. Variation in Square Footage: The square footage area of the Strata Lot may vary from that set out in the proposed strata plan by 5% without compensation to the Purchaser. If the Strata Lot varies by more than 5% to the disadvantage of the Purchaser, then the Vendor agrees to reduce the price of the Strata Lot by a percentage which is equal to the percentage by which the area of the Strata Lot as shown on the registered strata plan exceeds 5% less than as shown in **Exhibit B6** to the Disclosure Statement. For greater clarity, there will be no adjustment made in respect of the first 5% of square footage variance, but only in respect of that portion of the strata lot which varies to the disadvantage of the Purchaser by more than 5%.

14. Civic Address: The civic address and strata lot numbers relating to the Strata Lot are subject to change at the discretion of the Vendor without compensation to the Purchaser. If the Strata Lot numbering varies from that set out in **Exhibit B6** to the Disclosure Statement, then the Purchaser agrees that the Vendor may amend this Agreement to indicate the correct Strata Lot number.

18. No Resale Prior to Completion: The Purchaser shall not advertise or offer the Strata Lot for sale, nor enter into any agreement for the sale of the Strata Lot prior to the date that is 1 year after the Completion Date without the express written consent of the Vendor, which consent may be arbitrarily withheld by the Vendor.

21. Voting on Certain Resolutions: The Purchaser agrees with the Vendor to vote in favour of any resolutions requested by the Vendor to be placed on an agenda for a special or annual general meeting including, but not limited to, those that deal with amendments to the Form P - Declaration of Phased Strata Plan in respect of the order of the phases, the number of strata lots in each phase, construction schedules, unit entitlement of the strata lots, and the phase boundaries. The Purchaser further agrees, if requested by the Vendor, to deliver to the Vendor in advance of such meeting its written proxy so the Vendor may exercise such votes on the Purchaser's behalf. In the absence of such a proxy, the Vendor may present this Agreement to the meeting as evidence of the Purchaser's proxy in favour of the Vendor and the Vendor's unfettered discretion to exercise the Purchaser's proxy on these matters.

25. Privacy Consent:

(a) The Purchaser consents to the collection, use and disclosure of personal information contained in this Agreement and otherwise as collected by or on behalf of the Vendor and its agents, affiliates, and service providers for the following purposes:

- i. to complete the transaction contemplated by this Agreement;
- ii. to engage in business transactions included in securing financing for the construction of the development;
- iii. to provide ongoing products and services to the Purchasers;
- iv. to market, sell, provide and inform the Purchasers of the Vendor's products and services, including information about future projects;
- v. as required by law; and
- vi. for additional purposes identified when or before the information is collected.

(b) The Purchaser consents to the collection, use, and disclosure of the information to agents, contractors, and service providers of the Vendor and its affiliates in connection with the above purposes. Subject to legal and contractual requirements, the Purchaser may refuse or withdraw consent to for the collection, use, and disclosure of for the purposes of subsections 25(a)(iii) and 25(a)(iv) at any time by contacting the Vendor at the address set out above.

30. Ongoing Development: The Purchaser acknowledges and accepts that the Strata Lot is part of an ongoing phased development and that further units will be constructed adjacent to the Strata Lot, with attendant construction noise, dust, dirt tracks on roadways, and coming and going of vehicular traffic associated with the construction of the Development. The Purchaser also acknowledges and accepts that construction of the strata common facilities, such as the roadways, will be ongoing throughout the course of the construction of the Development, with attendant construction noise, dust, temporary roadway closures or detours, and the coming and going of vehicular traffic associated with the construction of the strata common facilities. The Purchaser hereby waives all claims it may have now or in the future against the Vendor, and its successors and assigns relating to the ongoing development and the inconveniences attendant to it.

Purchasers are recommended to carefully review the entirety of Exhibit J6 in addition to what is outlined above.

7.3 Developer's Commitments

The Developer has not entered into any commitments which will need to be met after completion of the sale of the strata lots.

7.4 Other Material Facts

There are no other facts that affect, or could reasonably be expected to affect, the value, price, or use of a strata lot or the development property.

Signatures

Section 22 of the *Real Estate Development Marketing Act* provides that every purchaser who is entitled to receive this Disclosure Statement is deemed to have relied on any false or misleading statement of a material fact contained in this Disclosure Statement, if any, and any omission to state a material fact. EAST KOOTENAY ASSESSMENT AUTHORITY, INVERMERE
BCGS : 82K.050

The intended plot size of this plan is
280 mm in width by 432 mm in height (B size)
when plotted at a scale of 1:500.

This plan lies within the Regional District of East Kootenay

The Field Survey Represented by this plan was completed on the 30th day of August, 2023
Adam Brash BCLS #795

NOTES:

This Plan is Phase 1 of a 8 phase strata plan under the Section 224 of the Strata Plan property Act lying within the Jurisdiction of the Approving Officer for the District of Invermere.

Distances are in metres and decimals thereof.

Grid Bearings are derived from differential dual frequency GNSS observations and are referred to Central Meridian of UTM Zone 11.

The UTM Coordinates and estimated absolute accuracy achieved are derived from GNSS Observations to the published coordinates of the Invermere Active Control Station Geodetic Control Monument 164418.

This plan shows horizontal ground-level distances unless otherwise specified. To compute grid distances multiply ground distances by the average combined factor of 0.999522. The average combined factor has been determined based on an ellipsoidal elevation of 873 metres (CGVD28 (HT2_0)).

LCP boundaries adjacent to a strata lot are defined by the centre line of the structural portion of exterior walls and where adjacent to common property are defined by the outermost edge of surface.

Areas of limited common property (patios, storage and parking) do not have a designated upper vertical extent.

The buildings included in this strata plan have not been previously occupied.

The buildings shown hereon are within the external boundaries of the land that is the subject of the strata plan.

All angles deflect by multiples of 45° or 90° unless otherwise indicated.

STRATA LOTS 25 & 27
MAIN FLOOR

BCGS : 82K.050

The intended plot size of this plan is
280 mm in width by 432 mm in height (B size)
when plotted at a scale of 1:100.

NOTES:

LCP boundaries adjacent to a strata lot are defined by the centre line of the structural portion of exterior walls and where adjacent to common property are defined by the outermost edge of surface.

All LCP patios, decks and parking are defined as to height by the centre of the floor above of its extensions, or where there is no floor above, by the average height of a strata lot within the same building unless otherwise indicated.

This Sheet shows Strata Lot boundary dimensions to the midpoint of the structural portion of the exterior walls and the midpoint between the structural portions of party walls between Strata Lots.

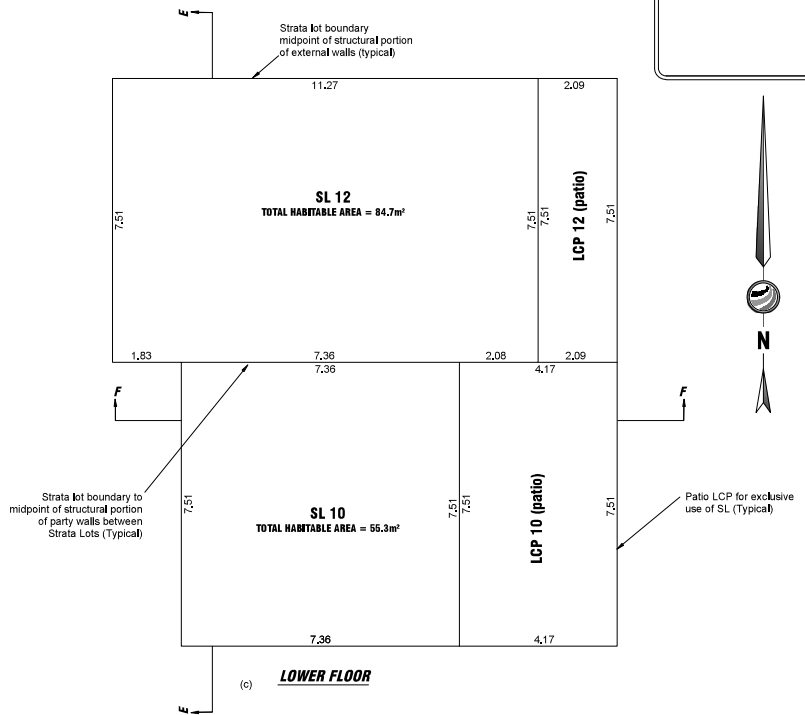

Section arrows on this plan point in the direction of view.
